

VIRTUAL WALLET

VIRTUAL WALLET

Puts the entire management of your Personal Health Budget in one place - your hands.

What is Virtual Wallet?

Virtual Wallet is a user-friendly solution that enables you to manage your Personal Health Budget in a secure online environment, giving you full control of the budget you are allocated and the support you receive.

How does it work?

Your NHS CCG adds funds to your Virtual Wallet

You book your care and support

Virtual Wallet pays your care provider

What are the benefits?

Personal Health Budgets have always been attractive.
Now they just got easy.

Easy to use

24-Hour access, real-time updates

Eliminates the need to manage a bank account

Safe and secure

Reduces the need for paper records

Puts you at the heart of your support

What do I need to do?

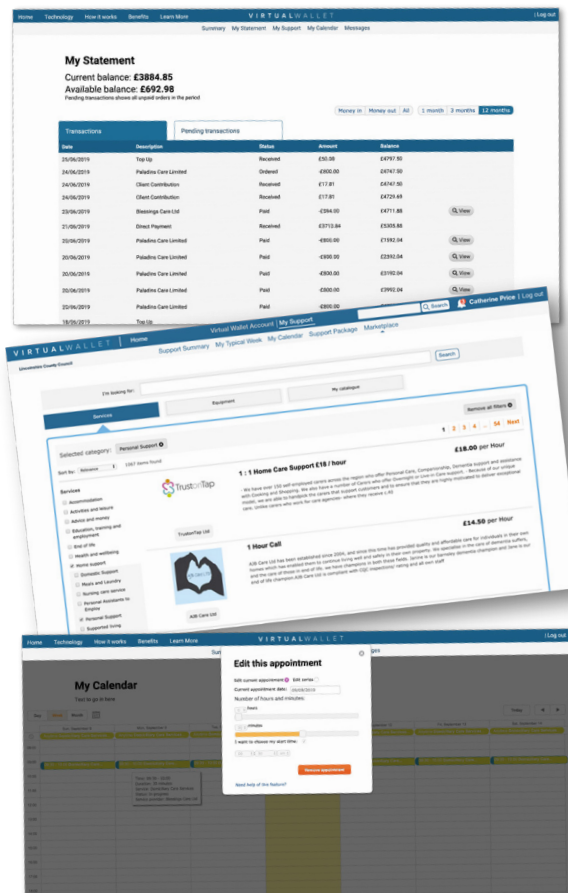

1. We work with your CCG to get you and your support providers set up in Virtual Wallet.
2. Our support team send your Virtual Wallet login details and a useful 'How to get started' guide to you via email.
3. You log into your Virtual Wallet and create bookings with your chosen support providers.
4. Your support providers generate invoices via your Virtual Wallet for you to review and approve.
5. Virtual Wallet makes payment to your support providers.

What does it look like?

Check your balance, and see your money in and out (just like a bank statement)

Search for different providers, PAs, services and products in the marketplace

View your calendar of support and edit your appointments

You can access your Virtual Wallet on any web-enabled device 24/7.

You can take a full tour at myvirtualwallet.co.uk
